- SQL server

My Projects

1) Fresh Cart

GitHub repo: <https://github.com/AndrewGirgis099/Fresh-cart>

Live demo: <https://andrewgirgis099.github.io/Fresh-cart/#/login>

"E-Commerce contain Home , product , Brands , Categories , Wishlist , Cart , User Setting ". using Angular

2) Yummy

GitHub repo: <https://github.com/AndrewGirgis099/Yummy>

Live demo: <https://andrewgirgis099.github.io/Yummy/>

"Yummy" helps you easily choose your meal. You can search for recipes by category, country, or ingredients. Additionally, the website includes real-time validation on the forms.

3) Weather App

GitHub repo: <https://github.com/AndrewGirgis099/weatherApp>

Live demo: <https://andrewgirgis099.github.io/weatherApp/>

A weather project with current and searched location temperatures, and offers a 3-day forecast.

4) Quiz App

GitHub repo: <https://github.com/AndrewGirgis099/Quiz-App/settings>

Live demo: <https://andrewgirgis099.github.io/Quiz-App/>

This project showcases my skills in HTML, CSS, Bootstrap, JavaScript and JavaScript OOP

5) First-Angular-project

GitHub repo: <https://github.com/AndrewGirgis099/first-Angular-app>

Live demo: <https://andrewgirgis099.github.io/first-Angular-app/home>

This project showcases my skills in Angular , Routing
